Profile

I have a passion for technology, learning new things and solving problems. In my task issue tracker built in C#, <https://bugoutbughunt-production.up.railway.app>, the project and ticket monitoring system I created is used to help identify issues within the software development process. My passion for developing and the desire to be on a team to learn and grow with like-minded Developers, I believe make me a great asset to any company.

SKILLS

.Net Technologies

- C#
- Blazor
- ASP.NET MVC
- .NET Framework 7.0.1
- Entity Framework
- LINQ
- Web API (Rest)

Web Technologies

- HTML5
- CSS3
- JavaScript
- Bootstrap 5/4

Database

- PostgreSQL

Version Control

- Git

Software/IDE

- Microsoft Visual Studio
- VS Code

Operating System

- Windows 11/10

Projects

Bug Tracker

🔗 <https://bugoutbughunt-production.up.railway.app>
ASP.NET, C#, PostgreSQL, Bootstrap, Railway

Blog

🔗 <https://blogsylurbs.up.railway.app/>
ASP.NET, C#, PostgreSQL, Bootstrap, Railway

Movie Busters

🔗 <https://moviebusters-tb.netlify.app/>
ASP.NET, C#, Blazor, Bootstrap, Netlify

EXPERIENCE

Web Developer

Coder Foundry Fullstack Web Development Bootcamp
Sep. - Dec. 2023 | Kernersville, NC

- Worked with like-minded Developers responsible for designing, deploying and maintaining fullstack ASP.NET MVC applications.
- Writing clean and efficient code using languages such as HTML, JavaScript and PostgreSQL database.
- Implementing responsive design to ensure websites are optimized for different devices and screen sizes.
- CI/CD workflow with GitHub for continuous integration & delivery.
- Bug Tracker - Allows you to keep track of project progress, submit tickets for defects or add features.
- Blog API - outlines an API call via my portfolio to make weekly blogs and updates. ASP.NET, C#, PostgreSQL and JavaScript were used in building this project.
- Movie Busters - is an online api call to TMDB movie database to view popular movies of the month. ASP.NET, C#, Blazor were used in building this project.

Quality Inspector

Excell Solutions | 2016 - 2023

- PCDMIS programmer
- Generate AS9012, First Article Inspection, NCMR reports
- Improved the inspection process by 30%
- Report and record inspection results in Solidworks Inspection Software
